

## Horizontal Style Fiber Splice Closure

On the FTTx network, the fiber splice closure can take over functions of the optical cross connection cabinet and optical distribution box, and higher requirements are put forward for the number of inlet cables of the fiber splice closure.

### Specification:

- Number of inlet / outlet holes: 3-inlet / 3-outlet
- Inlet / outlet cable diameter(mm):  $\Phi 12 - \Phi 24$
- Max. fibers of splice tray: 24-fiber (bundle)
- Max. number of splice trays: 4
- Max. number of fibers: 96 fibers (bundle )
- Sealing style: Rubber sealing
